*“I have thought about this a great deal.*

*What you and WGDJ did for the people I worked for (and me, for that matter) is hard to measure or express.*

*One of the mantras of the Walsh campaign was that effective didn't have to be expensive.*

*You proved that. We did not know it at the time but you became an indispensable part of our campaigns and helped to truly make history.*

*People who perhaps were not supposed to win did-- in a large part because of your generosity and know how.*

*Working with you was simply one of the best experiences and best learning experiences I have had in politics.*

*Thank you for more than I can say.”*
